Unit 9

TEST

1. What was your favorite thing about this unit?

I liked learning about multiple countries in one unit, it gives me more understanding of the whole world rather than a few specific regions.

2. What was your least favorite thing about this unit?

How shortened some complex topics were and how fast and rapid it was. But it's a given, since it's so much info in one unit.

3. Did you enjoy Modern World History class?

Yes, I did. It was very informative and interesting. History class was pretty boring in my old school, so I forgot most of the material, but, thankfully, I got to learn it again better this year.

4. Do you think this class helped you become a better global citizen (do you think you understand the world better now?) Why? How?

Yes, now I know the history behind most countries in the world which gives me a better understanding of the political, economic, and social state of the world. The class also taught about politics and economies, so now I understand them way better than before.

5. If you had a time machine and could go back and tell yourself from the first day of school something about this class, what would it be?

I'd tell myself to get better notebooks for my notes, and to do all the lesson assessments when are given and not leave them for later, submit photos of my notes, always, and maybe even to consider taking AP world history instead.

P.S. there are way more huge important things I'd do for history if I had a time machine.

Mrs. Givens

My favorite thing about this unit was learning about Afghanistan against US. I knew that they had a conflict and wanted to learn about details and how it started.

What was your least favorite thing about this unit?

I didn't like learning about religious conflicts because they were kind of confusing. Also, it makes me sad that people want to kill other people just for what they believe in.

3. Did you enjoy Modern World History class?

Yes, I did. Mrs. Givens is the best ^{history} teacher that I ever had. ^{can't we all just live in peace and love each other?}

In previous years I always was confused and didn't understand history, but this year I actually learned something. I love Mrs. Givens.

4. Do you think this class helped you become a better global citizen (do you think you understand the world better now?) Why? How?

I think that yes. Now I ^{that} ^{learned to} think of countries as people and them having conflicts it helped me to better understand how the world works. I learned a bunch of new terms and I now better understand politics! (before I had no clue about how politics work). And I also learned that most of the wars started for the same reason - grown men don't know how to resolve a

5. If you had a time machine and could go back and tell yourself from the first day of school something about this class, what would it be? ^{conflict without violence}

Now I know about the world more, I know more countries, I know new nations, and now I think I am a better global citizen.

5. If you had a time machine and could go back and tell yourself from the first day of school something about this class, what would it be?

However, you will have some challenges and hard work done, but you will go over it all, and remember, when you will enter this class, you will go back 1000 years back, and experience the world back then, and I would say everything is filled with wars there, but, there is no history without war and challenge.

Special Thanks, and my really, really best regards to Mrs. - Givens for such an interesting and fun class this year, and for the knowledgo given which opened my eyes onto the world.
